Web Site Design for Kids

July 11 - 14

Learn basic page building techniques for creating professional quality web sites — perfect for family or school projects.

Video Game Design & Animation

July 18 - 21

For aspiring game designers everywhere. Students will design an original character, learn story boarding from idea to screen, learn animated effects using flash basics, design backgrounds, and design sound effects with Flash.

Advanced Video Game Design & Animation

July 25 - 28

This workshop will explore the advanced features of Adobe Flash and advanced game motion graphics in creating levels of interactivity for game development. *Prerequisite:* Introduction to Computer Video Game Design or consent of instructor

Computer Illustration & Special Effects for Video Games

August 1 - 4

Learn to use Adobe Photoshop software to give your video game designs a professional polish. Learn to design game characters with expression and personality and create backgrounds and scenery that seem to come to life! *Prerequisite:* Introduction to Computer Video Game Design or consent of instructor

College of Extended and International Education
California State University, Dominguez Hills
